

# A4 Project

MAX MILLS

# Family Support Center

- ▶ The Family Support Center of Washington County believes in a community-centered, family-focused approach to supporting the needs of children and families.
- ▶ Family Support Center provides care for children ages 0-11.
- ▶ Crisis care is available 24/7. #1 goal is to prevent child abuse. **310 West 200 North St. George, UT 84770**

# Child Abuse

- ▶ It's harder to find out a child is being abused than an adult, because usually the child is being abused by loved ones.
- ▶ Statistics show that 4 deaths a day occur due to child abuse.
- ▶ Female victims exposed to abuse as a child are 25% more likely to become pregnant as a teenager.
- ▶ There are ways provided in this community to help these victims and families that are being abused daily, such as the family support center.

# My Project

# Ways you can help!

- ▶ The Family Support Center is a non-profit organization, you can make donations on the website <http://thefamilysupportcenter.com/>
- ▶ These donations go to help in managing and running this wonderful organization.

# Testimonials

- ▶ Without this service, I am not sure how I would have been able to make it to court. Being a single mom with no family, I had no one else to tend my children. Not only was it helpful, it was an enjoyable experience for my children.
- ▶ This is such a comforting thing, knowing that these children are in a safe environment, and that they will enjoy their time here. My foster children love coming.

# What Ive learned

- ▶ More families struggle in our community than I thought, but there are ways that are provided for relief and help. Also children are being abused and neglected everyday, and not only children but adults as well. There are ways provided for these individuals to escape there grief and distress and receive the help they need. I'm grateful for this knowledge so I can be more aware to other's and there needs and give them the safe and correct way to receive help through the Family Support Center.
