FROM: Antonio Guterres, U.N. Secretary-General

RE: Upcoming Constitution Convention in Nucountry

Congratulations on being chosen to attend the Nucountry Constitutional Convention, where you will establish a government, allocate power within that government, and choose an economic system for your soon-to-be independent country.

Before the convention, you will need to research various **Forms of Government**, **Power Systems**, and **Economic Systems**, as well as the issues Nucountry faces as it gains its independence.

I am aware that you all hope to promote the needs and goals of your own interest groups. Some groups have similar interests, while others will have conflicting interests. However, please try to consider the pros and cons of each government, power system and economic system so that Nucountry will have the greatest chance to sustain her independence at this critical juncture of history.
